

Give your child an opportunity to learn how to create fun programs and games! Coding with Kids classes are updated with **NEW PROJECTS EACH SESSION** so that your student can continue to advance their coding skills. We teach kids real programming skills in a fun and engaging way. Below are the classes available at your school.

LITTLE CODERS

Grades K-2
Tue, 3:15pm-4:15pm
Apr 10 - May 29

\$159 / 8-week session

Get them started early! The Little Coders class provides young students with the basics of computational thinking skills, such as loops and conditionals, through a fun blend of hands-on activities. The curriculum is built specifically for this age group, with a mix of activities from coding puzzles and board games to easy-to-use, drag-and-drop programming tools. Projects are updated each session, so returning students will have new challenges to work through and advance their knowledge.

GAME DEVELOPMENT BEGINNER-INTERMEDIATE

Grades 3-5
Wed, 3:15pm-4:15pm
Apr 11 - May 30

\$159 / 8-week session

This course introduces kids to computer programming through the fun and excitement of building video games. Working in Scratch, a drag-and-drop programming tool, students will create everything from animations to multi-level games. **Beginner Students** will learn the core concepts of programming a game, such as loops, conditionals, and variables. **Intermediate Students** will level-up to more complex concepts, like nested conditionals and functions with parameters. Projects are updated each session, so returning students will have new challenges to work through and advance their creativity and knowledge to the next level.

WEB DEVELOPMENT

Grades 6-8
Thu, 3:15pm-4:15pm
Apr 12 - May 31

\$159 / 8-week session

Have you ever wondered how a website is created? Find out how in our Web Development class! Whether you are new to coding or an expert developer, there is something for everyone in this class. We will help you hone your skills in HTML, CSS, and JavaScript as you create awesome websites or fun games. Those with no prior coding experience will start off an introduction to coding concepts using Scratch but quickly transition to programming JavaScript. Ready to start coding? Sign up now!
